Hazardous Materials Notification Form

SEE PAGE 4 FOR INSTRUCTIONS

The information entered herein is essential to your local fire chief and code enforcement officer, for the protection of your employees, firefighters and citizens in the immediate area, and to reduce damage to your property and the environment in the event of a fire, spill, or other emergency.

WHEN COMPLETED, THIS FORM MUST BE SUBMITTED TO THE FIRE DEPARTMENT AND CODE ENFORCEMENT OFFICE.

Hazardous Materials Location*

Actual Address: _____

Building Name: _____

Owner Name: _____

Owner Address: _____

Emergency Contact Name: _____

Emergency Contact Phone: _____

Include Day and Night Phone

Signature of Person Completing this Form

_____/_____/_____
Date

*It is suggested that a separate form be filled out for each building that contains hazardous materials.

FOR FIRE DEPARTMENT USE ONLY

_____ Accepted

_____ Denied

_____ Additional Information Needed

Signature of Fire Chief

Instructions for Hazardous Material Listing

NFPA 704 Symbol: This area identifies the hazards of materials for emergency responders. It does not apply to transportation or use by the general public. This system shall identify hazards of a material in terms of Health, Flammability, and Instability, with numerical ratings that range from four (4), indicating severe hazard, to zero (0), indicating minimal hazard.

The health rating is always at the nine o'clock position; the flammability rating is always at the twelve o'clock position; and the instability rating is always at the three o'clock position.

The fourth quadrant, at the six o'clock position, is reserved for indicating special hazards, such as **OX**, indicating oxidizing properties, or **W** indicating materials that react violently or explosively with water.

NOTE: Shipping and packing labels may be of assistance in identifying the class of material. Refer to your Material Safety Data Sheets.

Hazardous Material Description and Proper Shipping Name: This area is reserved for the description and name of the hazardous material.

Specific Location Within Building: Indicate the specific location within the building where the hazardous materials are stored.

Total Amount: List the total amount of reportable material. If the amounts vary from day to day, then the average amount should be listed. Amounts to be reported are shown on Table 1 on pages 5-6.

UN No. List the proper UN number assigned to the material.

EXAMPLE:

NFPA 704 Symbol	Material Description & Proper Shipping Name	Specific Location on Premises
	<p>METHYL CYANIDE</p> <p>AKA: ACETONITRILE, CYANOMETHANE, ETHANENITRILE</p> <p><input type="checkbox"/> Solid <input checked="" type="checkbox"/> Liquid <input type="checkbox"/> Gas</p>	<p>FLAMMABLE LIQUID VAULT</p>

Total Amount: 55 gallons

UN No. 1648

Special Considerations / Remarks:

This area is reserved for the building owner, fire chief, and code enforcement officer for making any notes or comments they feel are pertinent.

Table 1

<u>Amounts to be reported:</u>		<u>Operating Permit Required</u>
1.	Combustible Liquids (Class II and IIIA): 25 gals inside and / or 60 gals outside	✓ ^{ab} ✓ ^d
2.	Flammable Liquids (Class I): 5 gals inside and / or 10 gals outside	✓ ^{ac} ✓ ^d
3.	Explosive Materials / Blasting Agents: Any Quantity	✓
4.	Corrosive Materials: Gas: 200 cubic feet Liquid: 55 gals Solid: 1,000 lbs	✓ ✓ ✓
5.	Poisonous, Toxic and / or Irritating Materials: Any Quantity	✓
6.	Oxidizers: Gas: 200 cubic feet Liquid or Solid: Class 4 or 3: Any Quantity Class 2 or 1: 50 lbs	✓ ✓ ✓

^a Except the storage or use of paints, oils, varnishes or similar flammable mixtures when such liquids are stored for maintenance, painting or similar purposes for a period of not more than 30 days.

^b Except the storage of fuel oil used in connection with oil-burning equipment.

^c Except the storage or use of Class I liquids in the fuel tank of a motor vehicle, aircraft, motorboat, mobile power plant or mobile heating plant.

^d Except for outdoor storage of less than 1,100 gals.

Table 1 (continued)

<u>Amounts to be reported:</u>				<u>Operating Permit Required</u>
7.	Organic Peroxides:	Class I or II: Class III or IV:	Any Quantity 10 lbs	✓ ✓
8.	Pyrophoric Materials:		Any Quantity	✓
9.	Unstable / Reactive Materials:		Any Quantity	✓
10.	Water- Reactive Materials:		Any Quantity	✓
11.	Radioactive Materials:		Any Quantity	✓
12.	Etiologic (biohazard) Materials:		Any Quantity	NA
13.	Liquefied Petroleum Gas (Propane)		>2,000 gals	✓
14.	Non-Flammable Gas		>6,000 cubic feet	NA
15.	Flammable Gas		200 cubic feet	✓
16.	Flammable Solid		Any Quantity	✓
